

Payroll Services Alliance

Harmonize, Secure and Monitor your Payroll and HR

Today your foreign subsidiaries organize their payroll and HR using their own suppliers and their own processes. This has as a consequence that – if at all - you receive several reports, each containing different data with different indicators. And it also means that in each country someone of your staff negotiates with a supplier, and comes up with different terms and conditions, different ways of working, different contracts, ...

Being a Pan European company, you feel the need to bundle your payroll and HR on a European or clustered regional level. Besides the benefit of dealing with one supplier only, this allows you to harmonize, secure and monitor one of your critical company processes: payroll and HR.

The benefits for you

Save by Simplicity

Instead of having to deal with several suppliers, you can rely on one trustful partner who takes care of your entire payroll and HR in 27 European countries. This allows you to ease your partner management: one contact, one single contract, one offer. You win simplicity and you save time and money. Our Service Level Agreements, Customer Governance Management and Transition Management assure the quality of services you need.

Get Peace of Mind

Rely on the unique combination of European consolidation with local country expertise. Our Compliance Proof Payroll Services make sure that you are fully compliant with national and European legislation. At all times, without worries or workload. If needed, our Global Outsourcing Services take care of your entire payroll process, in one country or everywhere you're present in Europe.

Use our Flexibility

Adapt your service package ongoing, according to your business needs. Change for instance its geographical coverage from one country to a cluster of countries. And adapt the service coverage, eg from local payrolls to our international single point of contact service. Last but not least: use our flexible volume shift, eg when you establish a new site or close one, when you grow, when you move businesses, ...

Examples of our Unique Offering

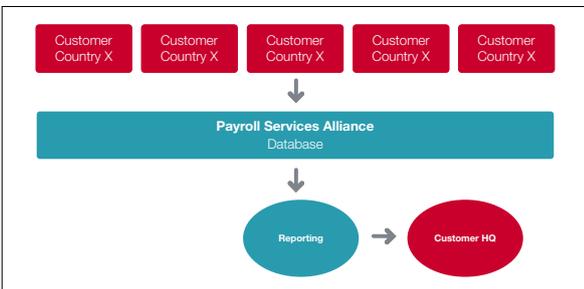

Our Customer Governance assures professional management of service delivery and cooperation.

Our Global Outsourcing Services take care of your entire payroll process.

Use our Service Options to adapt your service package ongoing, according to your business needs.

Our Pan European Reporting keeps you up to date on all your HR data.

Your Trusted Partner

The Payroll Services Alliance combines the services and capabilities of Aditro, Elanor, SD Worx, Seresco and Trianon into one packaged service, designed to fit local requirements as well as governance needs of international companies.

Facts and Figures

- The Payroll Services Alliance is European by nature and heart. Aditro, Elanor, SD Worx, Seresco and Trianon are leading payroll service companies in their home markets.
- The Payroll Services Alliance is the second biggest vendor in Europe. In 2010, we had over 450 M EUR combined revenue, 4.200 employees, over 51.000 customers and over 5,5 million payslips each month.
